

Hello friends! We are doing good here.

In March the Don church hosted another Baptist youth retreat at the Don church house. Baptist youths from Syktyvkar came to visit, fellowship and get stronger in the faith. Simeon's family lives in the Don church house and did a great job facilitating the event. The Baptist youths took part in of the Don church Sunday services and blessed the congregation thru singing and sharing. We had a good time of fellowship with our brothers and sisters from Syktyvkar.

Maria the nurse continues doing a great job taking care of Bill. Bill can sip liquids through his mouth and she feeds him through a tube in his belly. Overall, he is as usual. He understands everything you say to him. We want to thank everyone praying for Bill.

May 18th & 19th I was asked to interpret for the Source of Life church in Syktyvkar. They were having an annual conference and several speakers came from Singapore and the U.S. to encourage the local believers to walk with God. It was a great time of ministering together. The pastor of the Source of Life church is supposed to come to Don soon and join us during one of our Sunday services. (*pictured left*).

The Don church continues growing in the knowledge of God's word. Right now we are doing a series on the life of King Solomon and God's wisdom (*pictured below*).

Below are pictures of me preaching at a Source of Life church in the town of Emva. A local pastor invited my family and me to join them during a Sunday service. It was a great time of fellowship. I taught on having Gods peace Shalom in the life of believers. We went there a few weeks ago.

This time of year it stays light in Komi all night. This picture was taken outside my house at 1 am June 21st.

We appreciate everybody's prayers for us. May God bless you and keep you,  
Andre
